

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, AUGUST 1, 2006 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was light nationally with 187 new fires reported. Five new large fires (*) were reported, four in the Southern Area, and one in the Northern Rockies Area. Eight large fires were contained, three each in the Rocky Mountain and Southern Areas, and one each in the Northern California and Northern Rockies Areas. Very high to extreme fire indices were reported in Arizona, Arkansas, California, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Washington, Wisconsin and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 145th Airlift Wing, Charlotte, North Carolina, and the 153rd Airlift Wing, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. LT. Colonel Chuck Davis is the Mission Commander.

NORTHWEST AREA INCIDENTS/LARGE FIRES:

An Area Command Team (Loach) is assigned to manage large fires in Washington.

BLACK CRATER, Deschutes National Forest. A Type 1 Incident Management Team (Quesinberry) is assigned. A Unified Command between the Type 1 Team and the Oregon Department of Forestry (Kunze) is in place. This fire is seven miles southwest of Sisters, OR in white fir and lodgepole pine. Evacuations remain in place for two communities. Campgrounds, trails and roads remain closed. Backing fire and active interior burning along the east side were reported.

FLICK CREEK, North Cascades National Park. A Type 1 Incident Command Team (Bennett) is assigned. This fire is three miles southeast of Stehekin, WA in ponderosa pine, Douglas fir and grass. Several residences and structures remain threatened, and structure protection is in place. Continued hot, dry and windy conditions, and steep terrain are hindering containment efforts. Isolated torching, backing fire and creeping were observed.

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Custer) and a Washington Interagency Type 2 Incident Management Team (LaFave) are assigned. This complex, comprised of the Spur Peak and Tripod fires, is seven miles northeast of Winthrop, WA in beetle-kill lodgepole pine and heavy ground fuels. Historical cultural sites, commercial resources and wildlife habitat are threatened. Lack of wind and inversion moderated fire behavior. Scattered torching and short crown runs were observed.

FOSTER GULCH COMPLEX, Wallowa-Whitman National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This Complex, consisting of the McClean and Foster Gulch fires, is six miles southeast of Halfway, OR in grass, brush and mixed conifers. Several roads remain closed or restricted, including Highway 86 and Forest Road 39. Numerous residences, a communications site, hydroelectric facility and powerlines are threatened. Structure protection is in place. Moderate fire behavior with occasional torching at higher elevations was observed.

MAXWELL, Ochoco National Forest. A Washington Interagency Type 2 Incident Management Team (Reed) is assigned. This fire is six miles south of Mitchell, OR in heavy dead and down timber. A residence, communications equipment and the water supply for the city of Mitchell are threatened. Steep terrain and limited access are hampering containment efforts. Creeping and isolated torching were observed.

BEAR GULCH II, Olympic National Forest. A Type 2 Incident Management Team (Gormley) is assigned. This fire is 15 miles northwest of Hoodport, WA in timber. Rolling rocks and burning debris are posing a hazard on Highway 119, necessitating the closure to a portion of Olympic National Park. Steep rocky terrain is hindering containment efforts. Creeping fire behavior was reported.

TIN PAN, Okanogan-Wenatchee National Forest. A Washington Interagency Type 2 Incident Management Team (Jennings) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is burning seven miles west of Lucerne, WA in timber. Hiking trails within the fire area are closed. Backing fire, isolated torching, and short uphill runs were reported.

NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

An Area Command Team (Ribar) is assigned to manage large fires within the Geographic Area.

UNCLES COMPLEX, Klamath National Forest. A Type 2 Incident Management Team (Sinclair) is assigned. This complex, comprised of the Uncles, Rock, Ethel, Katherine, and Snoozer fires, is 18 miles northeast of Orleans, CA in brush and old growth forest. Residences, outbuildings and wildlife habitat remain threatened. Steep terrain, difficult access and poor visibility due to an inversion are hampering containment efforts. The inversion moderated fire behavior with short runs in surface fuels and minimal torching.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Pincha-Tulley) is assigned. This complex, comprised of the Little, Bake and Oven fires, is 40 miles northwest of Redding, CA in timber and grass. Numerous residences, outbuildings, power lines, municipal watersheds and wildlife habitat are threatened. Difficult access is hampering containment efforts. Short uphill runs and smoldering was observed.

KINGSLEY COMPLEX, Mendocino National Forest. A Type 1 Incident Management Team (Opliger) is assigned. This complex is 38 miles southwest of Red Bluff, CA in timber. The Team is also managing a portion of the Hunter fire. Numerous residences are threatened and evacuation orders remain in place for several communities. Steep terrain and difficult access continue to impede containment efforts. Very active fire behavior with isolated torching and long range spotting was observed.

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Incident Management Team (Blume) is assigned. The Orleans complex, comprised of the Somes, Crawford, Buck and Hancock fires, is four miles southwest of Orleans, CA in timber and dead and down fuels. The community of Orleans, a communications site, Native American cultural and spiritual sites, fisheries and a municipal water supply are threatened. Limited road access, steep terrain and snags are hampering containment efforts. Active torching, spotting and sustained uphill runs were reported. The Somes fire exhibited upslope runs and spotting and poses a potential future threat to Pearch Creek Subdivision.

HUNTER, Mendocino National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 19 miles southeast of Covelo, CA in timber. Spotted owl and fisheries habitats and structures remain threatened.

HAPPY CAMP, Klamath National Forest. A Type 2 Incident Management Team (Bradley) is assigned. This complex, comprised of 11 lightning-caused fires, is near Happy Camp, CA in grass and timber. The Titus and Goff fires remain active. Moderate rates of spread with individual tree torching were observed. The fires are burning in a roadless area and limited access is hampering containment efforts.

JUNCTION, Shasta-Trinity Unit, California Department of Forestry and Fire Protection. A CDF Type 1 Incident Command Team (Ault) is assigned. This fire is six miles west of Weaverville, CA in grass and timber understory. State Highway 299W was re-opened, and evacuations have been lifted. Minimal fire activity was observed.

PANTHER, Six Rivers National Forest. This fire is 14 miles west of Big Bar, CA in timber and brush. A watershed and a historic cabin are threatened. Difficult access and steep slopes are impeding containment efforts. Backing fire was reported.

SAGE, Modoc National Forest. This fire is 15 miles north of Alturas, CA in grass, juniper and sagebrush. No new information was reported. This will be the last report unless new information is reported.

WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

WINTERS, Winnemucca Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is ten miles northwest of Midas, NV in sagebrush and grass. The town of Tuscarora, ranches, a repeater and mining operations remain threatened. Fifteen foot flame lengths were observed in sage brush and grass.

BASCO, Elko Field Office, Bureau of Land Management. The fire is located 20 miles northwest of Elko, NV in sagebrush and grass. Minimal fire activity was observed.

IOWA COMPLEX, Battle Mountain Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Paul) is assigned. This fire is 21 miles northeast of Austin, NV in brush, pinyon pine and juniper. Smoldering in duff was observed.

HAMBLY COMPLEX, Ely Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Whalen) is assigned. This complex, consisting of the Hambly and Range fires, is 15 miles north of Alamo, NV in pinyon pine, grass and brush. Rapid rates of spread in sage brush, pinyon pine and juniper were observed.

TAYLOR, Northern Region, Nevada Division of Forestry. This fire is seven miles east of Tuscarora, NV in grass and sagebrush. Residences, ranches and commercial property remain threatened. Limited road access is hindering containment efforts. Minimal fire activity was reported.

NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

RED EAGLE, Glacier National Park. A transfer of command from a Type 2 Incident Management Team (Heintz) to a Type 1 Incident Management Team (Stanich) will occur today. This fire is one mile southwest of St. Mary, MT in spruce and fir. Glacier National Park Visitor Center, park residences and the community of St. Mary are threatened. Evacuations remain in place for St. Mary townsite. Portions of the Going to the Sun Road and Highway 89 remain closed. Single tree torching and short crown fire runs were observed.

BIG CREEK, Central Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Reid) is assigned. The fire started on private land 29 miles southwest of Livingston, MT in timber, grass, and sagebrush. Numerous residences remain threatened. Cooler conditions moderated fire behavior.

GASH CREEK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. This fire is six miles south of Victor, MT in timber. Several residences are threatened and some have been evacuated. Rough terrain and difficult access continue to hamper containment efforts. Short sustained crown fire with spotting was observed.

SOUTH PINE, Gallatin National Forest. A Type 2 Incident Management Team (Hall) is assigned. This fire is 13 miles south of Livingston, MT in timber. Extremely steep, rugged terrain continues to impede containment efforts. Isolated torching was observed.

LITTLE SPAR, Kootenai National Forest. A Type 2 Incident Management Team (McNitt) is assigned. A research natural area is threatened. Steep terrain and difficult access are hindering containment efforts. Short range spotting on steep heavily timbered slopes.

OWL, Crow Agency, Bureau of Indian Affairs. The fire is nine miles southeast of Lodge Grass, MT in timber, grass and sage. Creeping and smoldering with open flame was reported. Fuel jackpots are slowing mop up operations.

MAGGIE, Lewistown Field Office, Bureau of Land Management. This fire is 10 miles northeast of Cleveland, MT in grass. Smoldering was reported. No further information was received.

ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

DAWES COUNTY COMPLEX, Nebraska National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This complex, comprised of the previously reported Roberts Tract, Dead Horse and Spotted Tail fires, is 15 miles southeast of Chadron, NE in timber and grass. The communities of Chadron, Berryville and Whispering Pines, as well as a water treatment plant are threatened. Fire behavior decreased to smoldering and creeping after a cold front passed.

SIOUX COUNTY COMPLEX, Nebraska Department of Forestry. A Type 1 Incident Management Team (Oltrogge) is assigned. This complex, comprised of the previously reported Thayer and

Ruloff fires, is three miles northeast of Harrison, NE in timber and grass. Numerous farms and ranches are threatened and evacuations north of Harrison have taken place. Highways 20 and 29 were temporarily closed. Very active fire behavior was reported.

LIGHTNING COMPLEX, Standing Rock Agency, Bureau of Indian Affairs. This fire is eight miles west of Little Eagle, SD in grass. No new information was reported.

LITTLE VENUS, Shoshone National Forest. This fire is 30 miles west of Meeteetse, WY in bug killed spruce and heavy down fuels. Several structures remain threatened. Steep terrain and poor access continue to hinder containment efforts. Cooler temperatures and lower winds contributed to decreased fire activity.

MOREAU RIVER COMPLEX, Cheyenne River Agency, Bureau of Indian Affairs. This fire is 15 miles north of Eagle Butte, SD in grass. Steep terrain is hampering containment efforts. Minimal fire activity was observed.

AMICK, South Dakota Division of Forestry. This fire is 11 miles northeast of White Lake, SD in grass. No further information was received.

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

BURNT, Boise National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 24 miles northeast of Cascade, ID in subalpine fire and lodgepole pine. Wildlife and fisheries habitat and recreational facilities are threatened. Heavy dead and down fuels are impeding containment efforts. Moderate fire behavior with interior torching and spotting was observed.

POTATO, Salmon-Challis National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This fire is seven miles north of Stanley, ID in grass and timber. Fisheries habitat, power lines and recreation sites are threatened. Steep terrain is hampering containment efforts. Isolated torching and backing fire were observed.

REILLY COMPLEX, Southern Paiute Agency, Bureau of Indian Affairs. A transfer of command from a Type 1 Incident Management Team (Martin) back to the local unit will occur today. This complex, consisting of the previously reported Reilly and Red Hill fires, is 10 miles northwest of St. George, UT in grass and brush. Smoldering in heavy fuels was reported.

DUNCE, Payette National Forest. A Fire Use Management Team (Hahnenberg) is assigned. The Team is also managing the Lick Creek WFU. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 31 miles east of Edwardsburg, ID in cheatgrass. Structure protection measures remain in place in the Cabin Creek drainage. Minimal Fire behavior was reported.

LICK CREEK, Payette National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 21 miles northwest of McCall, ID in timber. The fire continues to back toward the main access road to the community of Yellowpine, which remains closed. There was minimal backing to Lick Creek and the Lick Creek Road has been reopened.

REESE, Bear River Area, Utah State Division of Forestry Fire and State Lands. This fire is 20 miles west of Tremonton, UT in grass. No new information was reported.

SOUTHERN AREA INCIDENTS/LARGE FIRES:

DUDLEY, Texas Forest Service. This fire started on private land three miles east of Comanche, TX in heavy brush, juniper, oak and mesquite. A mandatory evacuation was ordered for several residences. Active fire behavior with significant runs was observed.

CR102, Texas Forest Service. This fire started on private land two miles northeast of Cisco, TX in brush, juniper and oak.

MIDWAY, Chickasaw Agency, Bureau of Indian Affairs. This fire is 20 miles east of Durant, OK in hardwood timber. Highway 70 was temporarily closed due to smoke. Rapid rates of spread and long range spotting were reported.

TROLLINGER ROAD, Texas Forest Service. This fire started on private land 11 miles northeast of Santo, TX in brush and hardwood timber. Burn out operations were conducted. No further information was received.

HAGAN MOUNTAIN, Oklahoma Division of Forestry. This fire is in 18 miles northwest of Fort Smith, AR in grass and timber understory. Flame lengths up to 10 feet were reported. No further information was received.

KIRK RANCH, Texas Forest Service. This fire started on private land ten miles northwest of San Saba, TX in juniper, oak and brush. Active interior burning was reported.

MENZIE, Texas Forest Service. This fire started on private land ten miles northeast of Menard TX in brush and oak. Several residences are threatened. Minimal fire activity was reported.

EASTERN AREA INCIDENTS/LARGE FIRES:

CAVITY LAKE, Boundary Waters Canoe Area Wilderness, Superior National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This fire is 44 miles northeast of Ely, MN in timber and heavy blow down. Heavy fuel loading and difficult access continue to hinder containment efforts. The fire behavior was moderated when 1.25 inches of rain fell uniformly over the fire. Very few smokes were noted.

TURTLE LAKE, Boundary Waters Canoe Area Wilderness, Superior National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is 15 miles east of Ely, MN in timber. The fire received approximately an inch of rain. Fire behavior activity decreased as moisture moved through the area.

OUTLOOK:

Weather Discussion: A low pressure trough will continue moving through the West while high pressure covers the central and eastern states. The winds over Montana and the Dakotas will begin to diminish while gusty winds persist over Texas, Oklahoma and Kansas. Also, drier will begin to filter into the Great Basin.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern California Area Sunny except patchy fog along the coast.	60s coast, 70s to mid 80s mountains and upper 80s to upper 90s warmest inland valleys.	8 to 18% driest inland areas.	Northwest to northeast 5 to 15 mph with local gusts to 27 mph, becoming SW to NW 6 to 12 mph with gusts to 22 mph in the afternoon.
Western Great Basin Area Partly to mostly sunny with isolated showers and thunderstorms across east central Nevada.	Northern valleys: 77 to 92 Southern valleys: 85 to 104 Northern mountains: 68 to 81 Southern mountains: 73 to 81.	Northern valleys: 11 to 27% Southern valleys: 14 to 25% Northern mountains: 19 to 31% Southern mountains: 21 to 28%.	South to west at 5 to 15 mph.
Northern Rockies Area Upper level trough will move across the region with a chance of showers and thunderstorms for southern and central Montana. Remainder of Area should enjoy partly cloudy skies and continued dry and seasonal conditions.	West of Divide – 73 to 83 East of Divide – 78 to 86 North Dakota to 78 to 84.	West of Divide: 20 to 30%. East of Divide: 20 to 30% North Dakota: 25 to 40%.	West of Divide: West 5 to 10 mph East of Divide: Variable 5 to 10 mph North Dakota: East 5 to 10 mph.
Rocky Mountain Area Scattered showers and thunderstorms otherwise mainly dry over Kansas, South Dakota, and extreme western Colorado.	65 to 75 across Wyoming and South Dakota. 75 to 85 lower elevations of Colorado and western Nebraska. 90 to 100 over Kansas.	10 to 20% over most of South Dakota.	South winds 15 to 25 mph Kansas. North to east 10 to 20 mph South Dakota, Nebraska, and eastern Wyoming. West winds 10 to 25 mph over the rest of Wyoming and western Colorado.
Eastern Great Basin Area Idaho, Bridger-Teton: Partly cloudy then clearing with a few lingering isolated mountain thunderstorms in the morning. Northern Utah: Partly cloudy with scattered afternoon showers and thunderstorms. Southern Utah, Arizona Strip: Partly cloudy with scattered showers and thunderstorms in the mountains, more isolated over the valleys.	Idaho, Bridger-Teton: 68 to 77 mountains, 78 to 87 valleys. Northern Utah: 66 to 73 mountains, 73 to 85 valleys, up to 99 in eastern valleys. Southern Utah, Arizona Strip: 68 to 85 mountains, 85 to 98 valleys.	Idaho, Bridger-Teton: 20 to 35% mountains, 16 to 26% valleys. Northern Utah: 30 to 46% mountains, 23 to 30% valleys. Southern Utah, Arizona Strip: 23 to 40% mountains, 18 to 28% valleys.	Idaho, Bridger-Teton: West to northwest 8 to 10 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Southwest 8 to 15 mph.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Eastern Area Showers and thunderstorms likely over the southern ½ of Minnesota, northern Wisconsin, and the UP of Michigan. A few showers over the northern Northeast states. Fair elsewhere.	77 to 82 across the northwestern 2/3 of Minnesota and Maine. 82 to 92 over southeast Minnesota, northern Wisconsin, the UP of Michigan, and the southern Northeast states. 92 to 102 elsewhere.	32 to 37% over southwestern Missouri. 37 to 42% over northwest Minnesota. Greater than 42% elsewhere.	Southwest at 12 to 24 mph over southeastern Minnesota, southeastern 1/2 of Wisconsin, northern Iowa, the eastern end of the UP of Michigan, and northern parts of the LP of Michigan. North to northwest at 10 to 15 mph over northeast Minnesota, northern Wisconsin and the UP of Michigan. Light to moderate winds elsewhere.
Southern Area West Oklahoma: Sunny, hot, and dry. NE Oklahoma: Sunny, hot, and dry. West Arkansas: Partly cloudy. West-Central Texas: Partly cloudy.	Low 100s. Low 100s. Near 100. 100s.	Low to mid 20%s. 30%. Near 40%. Low to mid 20%s.	South to 20 mph. South to 10 mph. South to 10 mph. South to 20 mph.
Southern California Area Areas of morning low clouds coastal areas, otherwise sunny.	75 to 90 mountains. 80 to 90 valleys. Near 90 upper deserts. Near 100 lower deserts.	45 to 65% coastal areas 35 to 50% valleys 15 to 30% mountains 10 to 20% deserts	Southwest to northwest 5 to 15 mph.
Northwest Area No information reported.
